

## **SPP/CPE OVERSHOE**

**52-000-0014**

### **Product Specifications**

**Material:** SPP/CPE (Spunbonded Polypropylene Coated Chlorinated polyethylene) is lightweight, unbreathable, waterproof, with good tensile and tear resistance.

SPP/CPE is ideal for spray and splatter from water and other non-oil-based liquids and provides economical protection against non-hazardous, grimy-work environment applications. Widely used for protection requires low level of fluid resistant area, which don't hurt the people, but need waterproof situation

Does not contain:

- Melamine
- Cyanuric Acid

**Density:** 40 g/sq.m for the SPP layer  
18 g/sq.m for the CPE layer

**Colour:** White

**Size:** 15.5 x 41 cm

**Aspect:** Embossed

**Slip resistant:** Yes

**Packaging:** 1000 pces per box

**Cleanliness:** ISO 6

No ESD properties
