

VACUUM SEALER

70-100-6xxx

Air zero nozzle type vacuum sealers are clean-room compatible and work well with all common vacuum bag materials. The unit uses a low noise, non-article generating compressed air driven ejector vacuum pump which is efficient and maintenance free.

Product specifications:

Dimensions:	833 (length) x 518 (width) x 287 (height) mm
Weight:	30 kg
Seal length:	450mm / 600mm
Seal width:	10 mm
Seal rate:	1 to 10 pieces / minute
Required air pressure:	5 to 7 kg/cm ³

Features & advantages:

Removable digital control panel, Built-in air pressure regulator and filter, Clean Ejector Pump Suitable for Cleanroom, Foot operated pedal.

- Air is drawn directly from inside the package for quick packing
- Size of packages are not restricted by the size of chamber
- Offers flexibility of full or partial gaseous flush
- Appropriate for clean-room applications as the ejector vacuum pump releases very little particles
- Suitable for packages with grains or liquid with vertical-type and angle control models
- Ideal for packages susceptible to external shock with the chamber type sealers employ.

Part-number	Heating bar width	Number of heating bars	Stand
70-100-6019	450 mm	1	No
70-100-6023	450 mm	1	Yes
70-100-6022	600 mm	1	No
70-100-6021	600 mm	1	Yes

Warranty: 1 year
